How to Change the Date Parameters in Works

Date parameters in the Transactions section default to the past 30 days. The following steps show how to adjust those dates for the previous cycle.

1. To left of the Pending Sign Off tab, Click on the double arrows >>

2. Now you will see a list of filters with Date at the top. Click the + sign to expand the window.

3. The date range can be adjusted by clicking on the calendar icon.
4. A pop-up window will open. To see transactions for the most recently completed cycle, click the radial button next to **Previous Cycle** and then click OK.
5. To apply the date selection to the transactions you see on the screen, click on Search at the bottom left of the Advanced Filter menu.

6. These steps can be modified to search for a specified number of days, a particular time frame (using custom), and several other options located in the window from Step 4.
